

Superior Plate Processing

Heavy Plate Processing

Established in 1975, O'Brien Steel Service is a steel service center that distributes carbon steel products and specializes in heavy plate processing. We are committed to one overriding goal: **be easy to buy from.** Our broad range of in-stock carbon steel products and fleet of delivery trucks makes it easy for you to get what you want, when you need it. Our comprehensive processing capabilities provide added-value services that our customers need, while our dedicated employees ensure support that's professional, thorough, and friendly. **We can handle any size job, from 5 tons to 10,000 tons!**

With locations in Peoria, Milwaukee, and Wausau, we are ready to make your steel buying and processing experience **easy!**
