

Large Structural Inventory

Structural Steel

Established in 1975, O'Brien Steel Service is a steel service center that distributes carbon steel products and specializes in structural steel and heavy plate processing. We are committed to one overriding goal: **be easy to buy from**. Our broad range of in-stock carbon steel products and fleet of delivery trucks makes it easy for you to get what you want, when you need it. Our comprehensive processing capabilities provide added-value services that our customers need, while our dedicated employees ensure support that's professional, thorough, and friendly.

With locations in Peoria, Milwaukee, and Wausau, we are ready to make your steel buying and processing experience **easy!**

- Beams
